Post-Activity Reflection

Purpose: To consolidate learning about both the activity *and* the use of AI within it.

Use immediately after an activity or as part of a follow-up.

Reflection questions

1. Activity outcomes

- What worked well?
- What was challenging or unclear?

2. Use of AI

- Where did AI help?
- Where did it hinder or distract?

3. Judgement and decision-making

- What decisions required human judgement?
- Where did we need to slow down or intervene?

4. Ethics and impact

- Were there any equity, trust, or ethical concerns?
- How were they handled?

5. Learning forward

- What should we do differently next time?
- What guidance or capability needs strengthening?

About CloudPedagogy

CloudPedagogy develops practical, ethical, and future-ready AI capability across education, research, and public service.

This scenario is part of the AI Capability Framework Scenario Library, supporting applied, context-sensitive practice using the CloudPedagogy AI Capability Framework (2026 Edition).
